Investment Outlook

During the month of December the NAV rose 3.97% while the index rose 3.67%.

Gilt yields fell markedly during December, as investors recognized the likely severity of the coming recession and short term interest rates were cut aggressively by monetary authorities around the world, not least the UK. These gains for gilts are a double-edged sword for stock market investors. Of course they signal a challenging outlook for corporate profits, however they also reduce the discount rate against which equities are valued, justifying higher P/Es, especially for companies that can negotiate the recession relatively unscathed. The Japanese experience of the last 20 years is discouraging, but it is important to recognize that the complexion of the British stock market is very different to that of Japan and that there is no theoretical reason why cash-generative, growing companies should not do very well during a period of falling input costs, nor why their share prices should not go up. In particular we hope that consumer staple companies – like our key positions in Barr, Cadbury, Diageo and Unilever – will benefit. All are capable of steady growth in all but the most extreme economic conditions and we expect these characteristics to be increasingly prized by investors. Cadbury rose 10% in December, in part because it disposed of its Australian beverage business at a higher price than anticipated. The merger between HBOS and Lloyds was approved by both sets of shareholders, setting up the creation of what will be an extraordinarily profitable entity, assuming the bank can survive the forthcoming wave of bad debt write-downs. Meanwhile the dividend security of the HBOS preference shares is markedly enhanced.

Biography

Nick Train began his career as an Investment Manager at GT Management in 1981, having graduated from Queen's College, Oxford with a second class honours in Modern History (1977-1980). He left GT in June 1998, after 17 years, on its acquisition by INVESCO. At his resignation he was a Director of GT Management (London), Investment Director of GT Unit Managers and Chief Investment Officer for Pan-Europe. He joined M&G in September 1998, as a Director of M&G Investment Management. In June 1999 he was appointed as Head of Global Equities at M&G. He left M&G in April 2000 to co-found Lindsell Train Limited. He is investment adviser to the Worshipful Company of Saddlers.

Investment Manager Profile

Investment management services are provided by Lindsell Train Limited (Lindsell Train). Lindsell Train was formed in December 2000. However the principals, Michael Lindsell and Nick Train had worked together at GT Management from 1992 through to GT's takeover by INVESCO in 1998. Both Michael Lindsell and Nick Train went on to fulfil senior roles at INVESCO and M&G PLC respectively, where they continued to develop an in depth knowledge of investment processes and the world's stock markets. Their shared investment philosophy is to invest in durable businesses that are significantly under priced or less durable businesses that are valued by the market at a significant discount to their net balance sheet financial assets. This is achieved by choosing a concentrated portfolio of a small number of stocks with the intention of holding them for the medium to long term. Lindsell Train currently manages around £456m as at 30 June 2008. Lindsell Train is authorised and regulated by the Financial Services Authority.

Investment Policy

The Company has a concentrated portfolio of 25-30 stocks with a low turnover, and aims to have an above-market dividend yield. The Investment Manager uses a bottom-up stock picking approach and looks to invest in a universe of excellent UK listed businesses that appear mostly undervalued. The Company's policy is to invest no more than 15% of its gross assets in other listed investment companies (including listed investment trusts).

Discount Control Mechanism

The Directors have adopted an active discount management policy to establish and support an improved rating in the Company's shares through the use of share buybacks, with a view to limiting the discount to NAV per share at which the shares trade to no more than 5%. Up to 10% of the shares bought back may be held in treasury for reissue at later dates at no more than the discount at which they were purchased.

Important Information

Finsbury Growth & Income Trust PLC (the "Company") is a UK investment trust listed on the London Stock Exchange and is a member of the Association of Investment Companies. As this Company may implement a gearing policy investors should be aware that the share price movement may be more volatile than movements in the price of underlying investments. Past performance is not a guide to future performance. The value of investments and the income from them may fall as well as rise and is not guaranteed. An investor may not get back the original amount invested. There can be no assurance that the Company's investment objective will be achieved and investment results may vary substantially over time. This document is for information purposes only and does not constitute an offer or invitation to purchase shares in the Company and has not been prepared in connection with any such offer or invitation. Investment Trust share prices may not fully reflect underlying net asset values. There may be a difference between the prices at which you may purchase ("the offer price") or sell ("the bid price") a share on the stock market which is known as "bid-offer" or "dealing" spread. This is set by the market makers and varies from share to share. This spread typically averages 1-2% each way on the mid-market price (the price halfway between the bid and offer prices), and can fluctuate and at times be higher than average. Net Asset Value per share is calculated in accordance with the guidelines of the Association of Investment Companies in that income received by the company in the period since the last annual accounts is excluded. Total net assets are stated inclusive of income received. Any opinions on individual stocks are those of the Company's Investment Manager and no reliance should be given on any such views. Any research in this document has been procured and may have been acted upon by Lindsell Train Limited for its own purposes. The results are being made available to you only incidentally. The views expressed herein do not constitute investment or any other advice and are subject to change. They do not necessarily reflect the views of Frostrow Capital LLP and no assurances are made as to their accuracy.
